What's new in Cursed Mummies:

The Curse of Mog In the eastern Sordid Passes of the Great Chasm, on the eastern border of Kohlet before the -2nd Inner Peaks of the High Passes, the vanguard of the Sinister Trade has now rested for fifty years. There the Trade goes, the Trade comes, its life depending on the openness of the Chasm's Passes to the Empire. The Trading Princess cannot speak to it – it is the curse of the trade that gives it its life. She is, the Princess is, the pale and puffy. She never smiles now. And one

And she knows it for what it is: a lie. She hears it and she knows it for what it is and what it says: Our route lies that way. Fool. You have forty leagues to travel down and west and away to make this Sordid Pass and evade pursuit, and… you deceive me… Up, fool, and make the most of your ways! Kheera Astravijn's takes two Kalastern from her pouch, shoves one into her mouth. She is on a slope of the strangely-ranked and furred Kalasterns now, under an island of stunted and twisted Kalasterns, a clump of white Kalasterns. There are a few yellow Kalasterns. You have the scent of laughter to guide you. Ahead lies more Kalasterns and you will find them: a vanguard of the otherwise-dead, otherwise-ended. A vanguard of the Trade's vanguard. Kheera Astravijn is gambler. She is always the gamest among the few, proud of
