The query I have is UPDATE [mytable] SET [column1]=(SELECT [column1] FROM [anothertable]) WHERE [column1]=null and throws error Column name or number of supplied values does not match table definition. I am using SQL server 2016 A: Just change SET to SET [column1] =, like this UPDATE [mytable] SET [column1] = (SELECT [column1] FROM [anothertable]) WHERE [column1] = null Or as @Clover Rose said in the comment UPDATE [mytable] SET [column1] = NVL(column1,0) WHERE [column1] = null A: You are using the wrong syntax for SET you need to specify the column and not the column value. For Oracle use ISNULL UPDATE [mytable] SET [column1] = (SELECT [column1] FROM [anothertable]) WHERE [column1] IS NULL or IFNULL if you want NULL instead of 0 UPDATE [mytable] SET [column1] = IFNULL(, 0) WHERE [column1] IS NULL Q: Line Element Integral of a Function Let (M, g) be a Riemannian manifold. Let $\int_M g$

Objective Travel between the Lands Between and the world of Eld. To do so, you will begin your journey in Arcadia, the peaceful world at the center of the Lands Between, by crossing over to the Silver Moon, a magical realm. There, you will meet the Elden Lord, who will teach you the ways of the Elden Ring, and embark on your adventure in the Lands Between. Gameplay Wargames Online Battle [Elden Ring Network] Your title is Elden Lord of the Lands Between, and you belong to the Elden Ring, which has the power to control everything in the Lands Between. The Lands Between are your dominion. The three aspects of the lands Between: Eluveitie, the land of grass, Eluvia, the land of flowers, and Greenhollow, the ruins of an ancient civilization. In order to protect these lands, you must battle against all types of beast and evil. Lands Between [Elden Ring Network] Your domain is the Lands Between, which has three large regions: Eluveitie, the land of grass, Eluvia, the land of flowers, and Greenhollow, the ruins of an ancient civilization. You can move through the lands Between freely, trading messages or visiting other players. Silver Moon [Elden Ring Network] A magical realm in the Lands Between. You can ride on the Ciela, a magical creature that is summoned by your members. You can also learn magic from the Sorcerer Genci. Battle All Attacks: All attacks will have a chance to pass through an enemy's shield. Some attacks will have an added effect for stronger attacks, such as increasing the damage or attack rate. Basic Attacks: Basic Attacks can be used by single attacks as well as combos. They offer basic attack damage and critical damage, increasing as their strength and accuracy rise. Enhanced Attacks: Enhanced Attacks add the effects of a Skill to your basic attack. You can customize basic attacks by combining the effects of skills. Special Attacks: Special Attacks are specialized attacks that have a high amount of special effects, such as slashes that will freeze the enemy in place for a certain amount of time. You can learn many skills to use in battle, and customize your basic attacks by combining the effects of skills

What's new:

As a game about "epic fantasy," LOLBTHD were a little hesitant to use 1-U-1 but in the end it seems to suit the game well. Based on the Song of Ice and Fire, the Lands Between are main characters, a largely untouched world of magic and fantasy. There's a lot of random generation of the environment, which is intended to add some variability to the game. A glance through the Wiki shows that it will include some things like rooms containing monsters, hidden items, and traps, as well as individual rooms where you can do what you want (: The game promises an epic scale and story, which is great news, as we all know what a great story can deliver. That being said, the game is very short, a bit less than a month old, as of this post. It's being co-developed by four people, and while three are lead developers, if the game lives up to its potential, this could easily be a bit of a team builder. That being said, we're interested to see what it contains. (Mr. & Mrs. Wordsmiths: These reviews will not be counted toward the translation goal, but if you want to help us get better, we'd be really appreciative.) I think I spent longer with this game than I should have. It's a little long and contains a lot of plot, which I haven't seen in a game in a while. There are even two endings and I somehow managed to get all the way to a different one halfway through the game. Story 5/5 The story is what I was expecting from this. As a fantasy RPG, I didn't think there was a lot of exposition in this and it wasn't in any English, as far as I could tell. It's nice because it gives the game a unique feel and a sense of freedom. I managed to find out stuff quickly and the action is just crazy, which keeps me engaged. It's a nice mix of mystery, action, and puzzles. RPG 4/5 The RPG elements are what made me want to move onto this, as I prefer RPGs to ARPGs. I didn't really know how they'd handle it, but I love the balance between skill and magic, which seemed like a neat addition. It's fair, but the best might come from item finders and trades from merchants. Around level 10 or so, I switched from mage to heriarch
